

SIGNAGE

The signage of historic National Road, Route 40, is eye-catching and offers a place to pull over. The "BIKE" sign is designed for the same purpose.

REST STOP

Traveling along the Ohio to Erie Bike Trail is similar to traveling on historic Route 40. This space is more than just a shelter; it has components of utility that make it a significant stop for bike repairs and rest.

TRAIL CONNECTION

This shelter is filling a void for the Ohio to Erie Bike Trail and the Camp Chase Bike Trail. It is the spot that connects the trail to the rest of the state and people back to the community.
