

# MOTORISTS INNOVATION CENTER

## BUSINESS INNOVATION

Motorists occupies a 22-story building on the eastern edge of downtown Columbus. As part of their Vision 2021, the Business Innovation Center establishes a design standard for future projects and features seven distinct work settings. Densely populated work areas are complimented by adjacent collaborative space. Embedded technology is critical to the success of the space.

## ALIGNMENT WITH AIA PRINCIPLES

The Innovation Center is a space designed for their technology department and within the space, there is a café, comfortable huddle spaces, a game room, and multiple other access points for collaborative efforts.
